

Radiology Supplies

Radiology departments require unique supplies to yield the optimal results and protect both technicians and their patients. At Colortrieve, our aim is to aid you in creating a comfortable, hygienic and safe environment. We can provide you with the essential items you use every day like drapes and protective apparel; we also offer filing supplies to keep your department organized and running smoothly.

- We carry a full range of products, from protective apparel and positioning aids to signs and specialty cleaning supplies
- We supply everyone from small clinics to large hospital settings
- We offer many items in a wide variety of sizes, colors and patterns

For more than 35 years Colortrieve has been a leading resource for medical records management solutions. We have worked with radiology professionals to provide filing solutions that keep films protected and organized. Today, we include a full line of radiology supplies in our product line-up. We see it as a natural extension benefiting from the knowledge we have accumulated over many years of working with Hospitals, Oncology Centers, Radiology Clinics and Dental Practices. Colortrieve is known for excellent services, high quality products, and competitive prices.
