

## PROTECTIVE APPAREL

LMG Lead-Free (LMG)	Light Weight Lead (L)	Regular Weight Lead (R)
<p>More expensive than Light Lead, but about 35% lighter than Regular Lead. Lightest material available and recyclable. Lead-Free and Eco-Friendly.</p> <p>Tungsten-Antimony</p> <p>0.5mm Pb equivalency. Protection averages <b>96.6% Attenuation</b> over 80, 100, 120 KVP</p> <p>6-lbs (based on medium front protection apron)</p> <p>Made in USA</p>	<p>More expensive than Regular Lead, but about 13% lighter in weight and recyclable.</p> <p>Lead-Tin</p> <p>0.5mm Pb equivalency. Protection averages <b>96.8% Attenuation</b> over 80, 100, 120 KVP</p> <p>7-lbs (based on medium front protection apron)</p> <p>Made in USA</p>	<p>Most economical choice and recyclable.</p> <p>100% Lead</p> <p>0.5mm Pb equivalency. Protection averages <b>97% Attenuation</b> over 80, 100, 120 KVP</p> <p>8-lbs (based on medium front protection apron)</p> <p>Made in USA</p>

**PROTECTION IS PRIMARY:** Why are you wearing an apron? Protection from radiation! Some companies promise light weight apparel, but their garments just don't measure up to proper specs. At Colortrieve, we're much more concerned about your health and safety. Comfort is important, and while our garments are comfortable, comfort will always take a back seat to protection. Isn't that why you're purchasing Protective Apparel?

**ACCESSORIES:** Hook & Loop or Buckle closures are available as options with many garments. In addition to our FREE first line name embroidery and monogramming, we offer a selection of over 5,000 embroidery images for your protective apparel. Give us a call with your ideas and, together, we'll create a solution just for you.

**CARE AND MAINTENANCE:** Always hang your garment on large diameter hangers. Do not wad or fold your garment, as that may weaken the level of protection on the folded seam. We offer a range of apron storage options such as Apron Peg Racks (Item # [ARP-02](#)). Do not store sharp objects in the pockets or store your garment on top of a sharp object. To clean your garment, we recommend the use of disinfectant wipes such as PDI Sani-Cloth Germicidal Wipes (Item # [GWP-WAF](#)).

**WARRANTY:** Two-year limited warranty on materials and workmanship.

**RECYCLE:** We will gladly accept your old, leaded Techno-Aide Brand aprons for recycling. Call for a "Recycle Return Authorization". There will be no charge to you; we only ask that you pay for your own shipping. "Lead-Free LMG" apparel is environmentally friendly and does not need to be recycled.
